Intermodal Transport Forum

THEMATICALLY

Intermodal Transport in Poland and Europe – Challenges and Opportunities

Plenary debate: Polish presidency of the EU - priorities and vision of the future of intermodal transport

- Moderated discussion with representatives of the government, the EU and logistics operators

The role of Poland in European intermodal transport

- Integration with TEN-T corridors: Baltic-Adriatic, North Sea-Baltic
- Polish ports as intermodal hubs for Central and Eastern Europe
- Challenges and opportunities in the context of the Polish EU presidency

Intermodal infrastructure in Poland and Europe

- Development of intermodal terminals and their connections with the rail and road network
- Challenges of infrastructure modernization on the Polish-Ukrainian borders
- The role of EU and national funds in infrastructure expansion

Development of intersectoral cooperation in intermodal transport

- Cooperation of rail, road and maritime operators
- The role of ports as integrators of logistics chains
- Public-private partnership as support for new investments

Eurasian Transport Corridors – Intercontinental Connections

- New Silk Road: Geopolitical and Logistical Challenges
- Alternative Routes: The Potential of the Central Corridor
- Poland's Importance as a Transit Hub Between Asia and Europe

Green Transformation of Intermodal Transport

- Intermodal Transport as Key to Reducing CO₂ Emissions
- Investments in Rail and Water Transport as an Alternative to Road Transport
- How Do EU Climate Goals Affect the Development of Transport Infrastructure?

Digitalization and Innovation in Intermodal Transport

- Implementation of Intelligent Freight Management Systems
- Cybersecurity in Logistics Systems
- Case Study: Best Practices in Technological Integration in Europe
